Senior MERN Stack Engineer | AI & SEO Systems

Senior MERN Stack Engineer with strong hands-on experience building production-grade, AI-powered web applications and SEO-focused platforms. Specialized in combining Generative AI, modern SEO strategies, and scalable full-stack architectures to deliver high-impact products. Experienced across the full lifecycle—from system design and backend APIs to AI integration, prompt engineering, and performance optimization. Comfortable working full-time, exclusively, and owning complex systems end-to-end in high-expectation environments.

TECHNICAL SKILLS

- **Programming Languages**
 - JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, C#
 - **Frontend Engineering**
 - React.js, React Native, Next.js, Tailwind CSS, Material UI, Bootstrap, SASS
 - State Management: Redux, RTK Query
 - **Backend & APIs**
 - Node.js, Express.js, NestJS
 - RESTful API Design, Microservices Architecture, API Security & Authentication
 - **Databases & Data Layer**
 - MongoDB, MySQL, Firebase
 - Data Modeling, Caching Strategies, Scalable Data Pipelines
 - **AI & Automation**
 - Generative AI Integration (LLM APIs), Prompt Engineering
 - Python-based AI Automation, FastAPI / Flask Services
 - AI-driven Content Analysis & Workflow Automation
 - **SEO & Analytics**
 - Technical SEO, On-page Optimization
 - AI-assisted SEO Workflows, Content Optimization & Keyword Strategy
 - **DevOps & Tooling**
 - Git, GitHub, Bitbucket
 - CI/CD Pipelines, Cloud Deployment (AWS / GCP fundamentals)
 - **Payments & Integrations**
 - MangoPay Integration, Stripe Integration, Third-party API Integrations
 - **Process & Collaboration**
 - Agile / Scrum Methodologies, Jira, Cross-functional Team Collaboration
-

PROFESSIONAL EXPERIENCE

31 Green Ltd

October 2024 - December 2025

Senior Full Stack Developer

- Led development of a scalable real estate investment platform using Next.js, React, React Native, Node.js, and MongoDB, delivering high-performance web and mobile experiences.
- Architected and implemented reusable, modular component systems and shared UI libraries, significantly improving development velocity and long-term maintainability.
- Designed and optimized frontend–backend data flows, integrating secure RESTful APIs to support real-time updates, dynamic content rendering, and transactional workflows.
- Owned state management and performance optimization using Redux / RTK Query, reducing UI complexity and improving responsiveness across large-scale interfaces.
- Collaborated cross-functionally with backend engineers, product managers, and designers to translate complex business requirements into clean, scalable technical solutions.
- Enforced code quality, testing, and best practices, actively participating in architectural discussions, peer code reviews, and technical decision-making.
- Focused on scalability, security, and usability, ensuring the platform met production-grade standards for real-world investment use cases.

Skills: ReactJS • React Native • Next.js • Redux • TypeScript • JavaScript • HTML5 • CSS3 • SASS

• Material UI • REST API Integration • Git • Bitbucket • Jira • RTK • TailwindCSS • Payment

Integration via Mangopay • NestJS

Victor Harris Commercial

August 2023 – September 2024

IT Manager and Full Stack Developer

- **Digital Marke8ng and Web Development:** Implemented SEO strategies and developed new websites using WordPress and Next.js, enhancing online visibility and user engagement.
- **CRM and Automa8on:** Managed and automated Handshake CRM system to streamline client interactions and improve management processes.
- **IT Leadership and Security:** Led IT projects with a focus on network security and realtime operations, ensuring robust cybersecurity measures were in place.
- **Technical Support and Training:** Provided ongoing technical support and conducted training sessions to elevate staff technical skills and operational efficiency.

Skills: SEO Optimization • WordPress Development • Next.js Development • CRM Management • CRM

Automation • IT Project Leadership • Network Security Management • Cybersecurity Practices •

Technical Support • Technical Training • Redux • ReactJS • React Nalve

EDUCATION

Bachelors in Computer Science

Comsats University, Islamabad

CGPA: 3.40/4.00

Graduated on: June 2024
